

# Evaluation of radiographic and clinical outcomes following Absolut femoral prosthesis and Global acetabular cup total hip replacement surgery

ACTRN12614000318684

---

<b>Status</b>	RECRUITING
<b>Sponsor</b>	Global Orthopaedic Technology Pty Ltd
<b>Enrollment</b>	150 participants

## Plain Language Summary

---

This study is following patients who have received a total hip replacement using a specific combination of implants — the Absolut cemented femoral stem and the Global non-cemented acetabular cup — to evaluate how well the procedure works over time. Researchers are looking at both X-ray findings and how well patients feel and function after surgery.

You may be eligible if:

- You are 60 years of age or older
- You have been diagnosed with degenerative joint disease of the hip
- You are scheduled for a primary (first-time) total hip replacement

You may NOT be eligible if:

- You have an active infection in the affected hip
- You have previously had a total hip replacement or hip fusion on that side
- You have a nerve or muscle condition that limits the ability to safely evaluate the hip implant
- You have a serious systemic illness that would affect your recovery or the study results

Talk to your doctor about whether this trial might be right for you.

## Key Eligibility Criteria

---

### Inclusion (1)

- The individual is diagnosed with a primary diagnosis of Degenerative Joint Disease.

### Exclusion (3)

- The individual has an active infection within the affected hip joint.
- The individual has had previous total hip replacement or hip fusion of the affected hip joint.
- The individual has a neuromuscular or neurosensory deficit which limits the ability to evaluate safety and effectiveness of the device or has a systemic disease that would affect the subject's welfare or overall outcome of the study.

## Locations (3 total)

---

Fremantle Hospital and Health Service - Fremantle, WA, Australia  
Rockingham General Hospital - Cooloongup, WA, Australia  
St John of God Hospital, Murdoch - Murdoch, WA, Australia
