

# Evaluation, Treatment, and Follow-up of Patients With Lyme Disease

NCT00028080

---

<b>Status</b>	RECRUITING
<b>Sponsor</b>	National Institute of Allergy and Infectious Diseases (NIAID)
<b>Enrollment</b>	500 participants

## Key Eligibility Criteria

---

### Inclusion (2)

- Clinical diagnosis of active Lyme disease at the time of the initial NIH evaluation based on the CDC case definition. Study physician will review history to confirm probable cases.
- Subjects must maintain a private physician for non-protocol related medical complaints and for emergency medical treatment required for these or other of their disorders.

### Exclusion (14)

- Post treatment Lyme disease syndrome.
- Unacceptably poor compliance, which, in the opinion of the investigator, would interfere with one's ability to study or provide quality medical care for the patient.
- ELIGIBILITY CRITERIA TO UNDERGO APHERESIS:
- Age 18 years or above.
- Weight greater than 110 pounds.
- ... and 9 more (see full listing online)

## Locations (1 total)
