

Apheresis and Specimen Collection Procedures to Obtain Plasma, Peripheral Blood Mononuclear Cells (PBMCs) and Other Specimens for Research Studies

NCT00067054

Status	RECRUITING
Sponsor	National Institute of Allergy and Infectious Diseases (NIAID)
Enrollment	3,000 participants

Key Eligibility Criteria

Inclusion (9)

- Age 18 years or older
 - Able and willing to complete the informed consent process
 - Willing to provide blood or other samples that will be stored indefinitely and used for future research
 - Able to provide proof of identity to the acceptance of the clinician completing the enrollment process; when informed consent is obtained by telephone or a telehealth visit, the investigator obtaining consent will also confirm proof of identity.
 - Children aged 3 to 17 years inclusive, and at least 12 kg in weight.
- ... and 4 more (see full listing online)

Exclusion (45)

- A participant will be excluded from protocol participation if there is presence of a condition that the attending physician considers to be a contraindication to the specimen collection procedures.
 - Acute or chronic illness that, in the opinion of the investigator or designee, precludes participation in the study.
 - Factors related to the legal guardian that, in the judgment of the investigator or designee, may affect the objective decision-making of the legal guardian.
 - SKIN BIOPSY ELIGIBILITY CRITERIA FOR ADULTS ONLY:
 - The skin biopsy eligibility includes the following:
- ... and 40 more (see full listing online)
