

Tissue Procurement for Biomedical Research

NCT00182858

Status	RECRUITING
Sponsor	National Institute on Aging (NIA)
Enrollment	5,000 participants

Key Eligibility Criteria

Inclusion (3)

- Age 18 or older.
- Identified by the investigator, researcher, or physician to have a condition of interest for exploratory studies related to the participant's illness or other feature that offers the possibility of generation of hypotheses for future study.
- Healthy volunteers, willing to provide their samples.

Exclusion (3)

- The participant would be subjected to diagnostic and/or therapeutic procedures that are not necessary for clinical management.
- Excessive blood loss if this phlebotomy plus other research participation and/or clinical evaluation will result in blood loss of greater than 1 unit (400 ml, 1 pint) over an 8-week period.
- Inability to give informed consent.
