

Phase 2 Pilot Study of the Safety and Efficacy of Topical MW-III in Thermal Burns

NCT01297400

| | |
|------------|-----------------|
| Status | RECRUITING |
| Phase | Phase 2 |
| Sponsor | Skigenix, Inc. |
| Enrollment | 60 participants |

Key Eligibility Criteria

Inclusion (3)

- Adults, 18 years of age or older on the day of signing the informed consent.
- Thermal Burns not exceeding a total body surface area (TBSA) OF 25%, with at least one partial thickness burn of 0.5% TBSA or greater. If full thickness burn(s) are present at screening, the total full thickness burn area shall not exceed 10% TBSA. Note: TBSA excludes areas of superficial (first degree) burns.
- Able and willing to give informed consent and comply with study procedures.

Exclusion (5)

- Any burn that at screening is:
 - infected.
 - circumferential or deemed, in the judgment of the investigator, at high risk for developing compartment syndrome.
 - partial thickness that is likely, in the judgment of the Investigator, to require grafting within 72 hours, or other non-protocol intervention.
- Severe inhalation injury or other significant non-burn trauma.
