

Treatment of Brain AVMs (TOBAS) Study

NCT02098252

Status	RECRUITING
Phase	Not Applicable
Sponsor	Centre hospitalier de l'Université de Montréal (CHUM)
Enrollment	1,000 participants

Key Eligibility Criteria

Inclusion (1)

- Any patient with a brain AVM

Exclusion (1)

- Hemorrhagic presentation with mass effect requiring surgical management. In these cases, if a residual AVM is found after the initial surgery, the patient could then be a candidate for TOBAS.
