

NIAAA Natural History Protocol

NCT02231840

Status	RECRUITING
Sponsor	National Institute on Alcohol Abuse and Alcoholism (NIAAA)
Enrollment	7,500 participants

Key Eligibility Criteria

Inclusion (7)

- As this is a natural history protocol of alcohol use as a continuum, in order to be eligible to participate in this study, an individual must meet the following criterion:
 - Age ≥ 18 years of age
 - Willingness to complete the study including genetic and MRI tests.
 - We will assign participants to one of two groups in this study:
 - Treatment-seeking individuals (Patients that want to stop alcohol use and will require medical management to achieve sobriety) and
- ... and 2 more (see full listing online)

Exclusion (6)

- This is a natural history protocol of alcohol use as a continuum. Potential participants are pre-screened on the phone and, based on the information provided on the phone, the following categories are excluded because they are not suitable study participants for this protocol:
 - Individuals < 18 years of age
 - Prisoners
 - Pregnant candidates
 - Candidates having a severe medical or mental health disorder that would impair participation in the study
- ... and 1 more (see full listing online)
