

# Chronic Total Occlusion Registry

NCT02352818

---

**Status** RECRUITING  
**Sponsor** Universitaire Ziekenhuizen KU Leuven  
**Enrollment** 600 participants

## Key Eligibility Criteria

---

### Inclusion (1)

- All consecutive patients undergoing an elective attempt at percutaneous revascularization of a chronic total occlusion are eligible for inclusion in the CTO registry. A chronic total occlusion is defined as an occluded coronary artery with TIMI 0 flow that has been occluded for 3 months or more. By definition all patients will have been judged to be acceptable candidates for an attempt at revascularization before consenting to be part of the CTO registry.

## Locations (1 total)
