

Evaluation of Children With Endocrine and Metabolic-Related Conditions

NCT02769975

Status	RECRUITING
Sponsor	Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD)
Enrollment	15,000 participants

Key Eligibility Criteria

Inclusion (3)

- In order to be eligible to participate in this study, an individual must meet all of the following criteria:
- Participants with known or suspected endocrine disorder age 3 months-18 years are eligible for this protocol.
- Relatives ages 3 months-100 years may be enrolled if clinically indicated for the diagnosis of a proband.

Exclusion (3)

- An individual who meets any of the following criteria will be excluded from participation in this study:
- Lack of suspected endocrine disorders.
- Any medical, physical, psychiatric, or social conditions, which, in the opinion of the investigators, would make participation in this protocol not in the best interest of the patient, will exclude participation. Patients who are critically ill, unstable, or with severe organ failure that may affect/limit the endocrine evaluation and place unsustainable demands on Clinical Center or NICHD resources will be excluded.
