

# Proton Radiotherapy for Primary Central Nervous System Tumours in Adults

NCT02797366

---

Status	RECRUITING
Phase	Phase 2
Sponsor	Uppsala University
Enrollment	500 participants

## Key Eligibility Criteria

---

### Inclusion (25)

- The patient must be at least 18 years old
- World Health Organization (WHO)/ Eastern Cooperative Oncology Group (ECOG) performance status 0-2, Karnofsky score  $\geq 60$ .
- The patient must be able to understand the information about the treatment and give a written informed consent to participate in the trial.
- Adequate follow-up study must be possible; this will exclude a patient who is uncooperative.
- Must have a life expectancy of at least 3 years based on age and co-morbidities as well as diagnosis. For patients considered for re-irradiation the life expectancy must be estimated to minimum 6 months.

... and 20 more (see full listing online)

### Exclusion (3)

- Concomitant or previous malignancies. Exceptions are adequately treated basal cell carcinoma or squamous cell carcinoma of the skin, or in situ carcinoma of the cervix uteri with a follow-up time of at least 3 years, or other previous malignancy with a disease-free interval of at least 5 years.
- Not able to understand information or manage tests according to study protocol. If necessary, only authorized interpreters may be used to assist in the translation.
- Psychiatric or addictive disorders or other medical conditions that, in the opinions of the investigator, would preclude the patient from meeting the study requirements.
