

# Investigating Complex Neurodegenerative Disorders Related to Amyotrophic Lateral Sclerosis and Frontotemporal Dementia

NCT03225144

---

Status	RECRUITING
Sponsor	National Institute of Neurological Disorders and Stroke (NINDS)
Enrollment	360 participants

## Key Eligibility Criteria

---

### Inclusion (4)

- Patients will be included if they
- Are age 18 or older
- Have been given a diagnosis by a neurologist of frontotemporal dementia, primary progressive aphasia, semantic dementia, motor neuron disorder, amyotrophic lateral sclerosis, progressive bulbar palsy, corticobasal syndrome, Huntington disease or other related adult-onset neurodegenerative disorder OR
- Carry a mutation in a gene that causes familial ALS or FTD

### Exclusion (7)

- Patients will be excluded if they
- Have other major neurological or medical diseases that may cause progressive weakness or cognitive dysfunction, such as structural brain or spinal cord disease, metabolic diseases, paraneoplastic syndromes, infectious diseases, peripheral neuropathy or radiculopathy or other significant neurological abnormalities.
- Have an unstable medical condition that, in the opinion of the investigators, makes participation unsafe
- Require daytime ventilator support at the time of study entry
- Are unable to travel to NIH
- ... and 2 more (see full listing online)

## Locations (1 total)
