

# Immune-Competent Cell Manifestations in Psoriatic Arthritis Achilles Tendons

NCT03248284

---

**Status** RECRUITING  
**Sponsor** Odense University Hospital  
**Enrollment** 30 participants

## Key Eligibility Criteria

---

### Inclusion (3)

- Fulfilling the CASPAR criteria
- Insertional Achilles tendon pain
- Ultrasonic findings of inflammatory disease at the painful Achilles tendon insertion (= enthesitis) defined as abnormally hypoechoic (loss of normal fibrillar architecture) and/or thickened tendon at its bony attachment, seen in two perpendicular planes that may exhibit a Doppler signal or bony changes, including enthesophytes, and erosions.

### Exclusion (3)

- Other inflammatory rheumatic diseases than PsA
- Ultrasonic signs of complete rupture of the Achilles tendon
- Not wishing to participate or not suited for project evaluation
