

Samples From Human Subjects to Facilitate Basic, Translational and Clinical Research

NCT03253705

Status RECRUITING
Sponsor National Institutes of Health Clinical Center (CC)
Enrollment 1,000 participants

Key Eligibility Criteria

Inclusion (6)

- Males or females of age greater than or equal to 18 years old.
 - Subjects unable to provide informed consent must have a surrogate decision maker or another legally authorized representative (such as a legal guardian or holder of the DPA)
 - Males or females of age greater than or equal to 18 years old.
 - Subjects unable to provide informed consent must have a surrogate decision maker or another legally authorized representative (such as a legal guardian or holder of the DPA)
 - Males or females of age greater than or equal to 18 years old
- ... and 1 more (see full listing online)

Exclusion (12)

- Hemoglobin ≤ 7.0 g/dL
 - Currently receiving infusion of epinephrine; or dopamine at an infusion rate of ≥ 2.5 microgram/kg/min, norepinephrine of ≥ 20 mcg/min, or vasopressin ≥ 0.04 units/min*
 - In the presence of known coronary artery disease (CAD) a systolic blood pressure (SBP) ≤ 90 mmHg. In the absence of known CAD a SBP ≤ 80 mmHg or mean arterial pressure (MAP) ≤ 60 mmHg with or without vasopressors*.
 - For critically ill patients with shock (on vasopressors), no more than 20mL of blood may be obtained within a 24 hour period. (No more than 200ml over eight weeks.)
 - Research subjects may be excluded if in the opinion of the study investigators they have a condition that may adversely affect the outcome of the study or the safety of the volunteer.
- ... and 7 more (see full listing online)
