

Sample Collection and Tracking for the Developmental Therapeutics Clinic

NCT03269578

Status	RECRUITING
Sponsor	National Cancer Institute (NCI)
Enrollment	3,000 participants

Plain Language Summary

This study at the NIH (National Institutes of Health) is collecting biological samples (such as blood and tissue) and medical data from cancer patients being evaluated or treated at a specialized clinic, to help researchers develop new experimental treatments.

****You may be eligible if...****

- You are 18 or older
- You are being evaluated or treated for cancer or a non-cancerous tumor at the Developmental Therapeutics Clinic at the NIH Clinical Center
- You are willing to allow your samples and limited medical information to be used for research

****You may NOT be eligible if...****

- There are no specific medical exclusion criteria listed for this study

Talk to your doctor to see if this trial is right for you.

Key Eligibility Criteria

Inclusion (5)

- Patients who are being evaluated and/or treated for cancer or benign tuumors in the Developmental Therapeutics Clinic at the NIH Clinical Center
- Ability to understand and willingness to sign a written informed consent document indicating their willingness to have data from their tissue or biologic fluid research specimens and limited medial information used for research as outlined in this protocol and to allow protocol staff access to the CRIS database and their Medical Records Number (MRN).
- Age greater than or equal to 18 years
- ECLUSION CRITERIA:
- None

Locations (1 total)

National Institutes of Health Clinical Center, Bethesda, Maryland, United States
