

Constitution of a Clinico-radiological Database and a Biobank for Patients With Lacunar Infarcts

NCT03552926

Status	RECRUITING
Sponsor	Assistance Publique - Hôpitaux de Paris
Enrollment	500 participants

Key Eligibility Criteria

Inclusion (7)

- Age 18 years and above
- History of recent (less than 15 days) neurological deficit related to a small subcortical infarct (evidenced by medical history or physical examination)
- Diagnosis of recent small subcortical infarct on MRI (hyperintensity on diffusion-weighted imaging showing an infarction in the territory of one perforating artery) presumably responsible for the corresponding neurological deficit
- Lesion diameter less than 20 mm
- Ability to comply with scheduled follow-up and annual neurological evaluation
- ... and 2 more (see full listing online)

Exclusion (7)

- Prior diagnosis of dementia according to DSM IV criteria
- Prior severe disability with Rankin scale ≥ 4
- Serious concomitant systemic disorder that can compromise the follow-up study;
- Leukoencephalopathy of non-vascular origin;
- Severe psychiatric disorder;
- ... and 2 more (see full listing online)

Locations (1 total)

Hôpital Lariboisière, Paris, France
