

Outcome Analysis in Septorhinoplasty

NCT03925389

Status RECRUITING
Sponsor FRANK DECLAU
Enrollment 750 participants

Key Eligibility Criteria

Inclusion (2)

- at least 18 years old
- Patients eligible for external septorhinoplasty: patients seen in consultation because of nasal obstruction were evaluated. Patients who had symptoms of nasal obstruction for at least 1 year that were the result of an identifiable anatomical cause such as septal deviation, turbinate hypertrophy, internal valve collapse, or external valve collapse were included in the study.

Exclusion (4)

- < 18 years
- mental or physical incapacity to answer the questionnaires
- nasal fracture or surgery in the past year
- nasal cocaine use in the past year
