

Determinants of SARS (Severe Acute Respiratory Syndrome)-COV2 (COVID-19) Persistence After Convalescence

NCT04448145

Status RECRUITING
Sponsor Columbia University
Enrollment 800 participants

Key Eligibility Criteria

Inclusion (4)

- Laboratory confirmed SARS-CoV-2 using currently available laboratory testing techniques (e.g., RT-PCR, Immunoglobulin M (IgM) /IgG) or clinical history compatible with a COVID-19 like illness (fever, cough, shortness of breath).
- Negative participants with no known prior COVID-19 diagnosis or COVID vaccine
- At least 7 years of age
- Participants are eligible to provide semen and breast milk samples if they are 18 years of age or older

Exclusion (2)

- Age <7
- Intercurrent conditions that in the opinion of the investigator would confound the findings of the study.
