

# Tacrolimus Pharmacokinetic Subpopulations

NCT04526431

---

**Status** RECRUITING  
**Sponsor** University Hospital, Grenoble  
**Enrollment** 180 participants

## Key Eligibility Criteria

---

### Inclusion (7)

- Kidney transplant patients at the CHUGA, CHU Saint-Etienne or CHU Clermont-Ferrand, whose new transplant is no more than 7 days old (inclusive)
  - Patients initially treated with tacrolimus as an immunosuppressant, combined with mycophenolate (MMF), mycophenolic acid (MPA) or everolimus (EVR), with or without corticotherapy.
  - No plans to remove tacrolimus from the patient's immunosuppressive treatment (e.g. no plans to switch to belatacept a priori), during the first 4 years post-transplantation.
  - Affiliation to or beneficiary of a social security scheme
  - Able to read and understand the terms of the protocol
- ... and 2 more (see full listing online)

### Exclusion (8)

- Contraindication to the use of tacrolimus
  - Patient already treated with tacrolimus at the time of transplantation
  - Pregnant, parturient or breastfeeding women
  - Patient deprived of liberty by judicial or administrative decision
  - Patient under guardianship or curatorship, or receiving forced psychiatric care
- ... and 3 more (see full listing online)
