

# NEPTUNE Match Study

NCT04571658

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	University of Michigan
<b>Enrollment</b>	375 participants

## Key Eligibility Criteria

---

### Inclusion (5)

- Consented and eligible participants in the biopsied or non-biopsied cohorts of the NEPTUNE observational study
- Must be potentially eligible for the NEPTUNE Match partnering trials (e.g. if no trial is enrolling a participant under age 6, those under 6 are not eligible).
- Note: NEPTUNE Match partnering trials and associated eligibility criteria are expected to be dynamic and change as trial protocols are developed, activated, and amended.
- Regular nephrology healthcare provided at a NEPTUNE study site.
- Willing and able to consent, and as appropriate assent, to participate in NEPTUNE Match

### Exclusion (2)

- Currently non-NEPTUNE observational study participants are not eligible to be matched to a clinical trial using these biomarker assessments.
- \. Non-English or non-Spanish speaking
