

Connect for Cancer Prevention Study (Connect)

NCT04609072

Status	RECRUITING
Sponsor	National Cancer Institute (NCI)
Enrollment	200,000 participants

Key Eligibility Criteria

Inclusion (4)

- Due to the minimal risk nature of this protocol, all individuals interested and able to participate in Connect for Cancer Prevention, who meet the eligibility criteria at time of initial study invitation, will be able to participate. In order to be eligible to participate in this study, an individual must meet all of the following criteria:
- Patients or members of participating IHCS at the time of enrollment
- Age between 30 and 70 years old at study invitation
- If an individual is determined to be ineligible at the time of enrollment due to age, the individual will be allowed to re-enroll at a later time once the recruit meets the age requirement. This includes recruits that did not meet the original age requirement of 40-65 years of age but now meet the updated age range of 30-70.

Exclusion (3)

- An individual who meets any of the following criteria at time of initial study invitation will be excluded from participation in this study:
- Individuals with a confirmed history of invasive cancer (other than non-melanoma skin cancer)
- Individuals with known cognitive impairment documented in their medical record
