

# Acutelines: a Large Data-/Biobank of Acute and Emergency Medicine

NCT04615065

---

<b>Status</b>	RECRUITING
<b>Sponsor</b>	University Medical Center Groningen
<b>Enrollment</b>	35,000 participants

## Key Eligibility Criteria

---

### Inclusion (13)

- Triaged as one of highest two triage categories (red or orange) according to the Manchester triage system;
  - Triaged as the third highest triage category (yellow) and arrival by EMS of Helicopter Emergency Medical Service (HEMS);
  - Shock
  - Suspicion of sepsis (based on either physicians' suspicion, Sepsis-2 or Sepsis-3 criteria)
  - Acute kidney injury (AKI)
- ... and 8 more (see full listing online)

### Exclusion (4)

- Referred for organ transplantation as recipient
- Transfer from other hospital
- Accidental contact patient material (i.e. internal work-related accident)
- While data- and imaging will be collected from all these patients, biomaterials will only be collected from patients fulfilling the first criterion (i.e. triaged as one of highest two triage categories \[red or orange\] according to the Manchester triage system) and from patients with shock or a suspicion of sepsis.
