

# Project PEAK: Early Intervention for ADHD

NCT04627415

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	Lehigh University
Enrollment	180 participants

## Key Eligibility Criteria

---

### Inclusion (2)

- to 5.11-year old children with clinically significant symptoms of ADHD.
- Children had to have met DSM-5 criteria for one of the three presentations of ADHD based on clinical interview and parent and teacher behavior ratings, including parent and teacher report of elevated levels of impairment at home and school (i.e., score greater than 90th percentile on one or more Conners Early Childhood Rating Scale subscales relevant to ADHD).

### Exclusion (2)

- A diagnoses of autism spectrum disorder (ASD), pervasive developmental disorder, intellectual disability, neurological damage, or significant motor or physical impairments.
- Children needed to be enrolled in a pre-school or day care setting at least 2 days a week unless otherwise unable to enroll (e.g. behavioral problems, lack of services for unrelated disability) in order to establish the presence of symptoms across two settings.
