

# TRabecular Metal Economic and Clinical Knee Trial

NCT04677907

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	NHS Greater Glasgow and Clyde
<b>Enrollment</b>	144 participants

## Key Eligibility Criteria

---

### Inclusion (6)

- Male or female subjects may be recruited to the evaluation.
- Age - there are no restrictions relating to age of the patient.
- Subjects who are able to give voluntary, written informed consent to participate in this investigation and from whom consent has been obtained.
- Subjects who in the opinion of the Investigator, are able to understand this investigation, co-operate with the investigation procedures and are willing to return to the hospital for all the required post-operative follow-ups.
- Subjects with uni-lateral osteoarthritis of the knee or subjects with bi-lateral osteoarthritis of the knee, who have a well functioning and pain free knee replacement in the contralateral knee.

... and 1 more (see full listing online)

### Exclusion (8)

- Patients who, in the opinion of the Investigator, have an existing condition that would compromise their participation and follow-up in the study.
- Patients with bi-lateral disease that significantly impacts on their current function and pain.
- Patients who require revision knee arthroplasty surgery.
- Disorders of the feet, ankles, hips or spine causing significant abnormal gait or significant pain.
- Neurological conditions affecting movement.

... and 3 more (see full listing online)
