

Feasibility of Home-based tES for Older Adults at Risk of Falling

NCT04732533

Status	RECRUITING
Phase	Not Applicable
Sponsor	Hebrew SeniorLife
Enrollment	72 participants

Key Eligibility Criteria

Inclusion (10)

- PF group:
 - Aged 60+
 - Self-report of one or more falls within the past year, and/or concern of falling in the future, and/or self-report of Parkinson's disease.
 - Able to read, write, and communicate in English
 - Able to identify an eligible PA to participate with them in the study
- ... and 5 more (see full listing online)

Exclusion (7)

- PF group:
 - Evidence of cognitive impairment that would likely interfere with one's ability to understand the study protocol, risks/benefits, and testing procedures. This will be defined as self-reported diagnosis of Alzheimer's disease or dementia, a score of d19 on the Telephone Interview for Cognitive Status (TICS) at the time of telephone screening, a score of 18 or less on the Montreal Cognitive Assessment (MoCA) during the in-person screen, or an inability to understand study procedures following review of the Informed Consent form.
 - Inability to stand or ambulate unassisted for at least 25 feet.
 - Contraindications to tDCS, including a reported seizure within the past two years, use of neuro-active drugs, the risk of metal objects in the brain, skull, or head, self-reported presence of specific implanted medical devices (e.g., deep brain stimulator, medication infusion pump, cochlear implant), or the presence of any active, uncontrolled dermatological condition, such as eczema, on the scalp.
 - PA group:
- ... and 2 more (see full listing online)
