

Pilot Study to Evaluate the Long-term Chronic Care of Patients Who Could or do Utilize an Osseointegrated Device (OID)

NCT04899037

Status RECRUITING
Sponsor University of South Florida
Enrollment 50 participants

Key Eligibility Criteria

Inclusion (7)

- age 18-85 years
- community dwelling
- residency: participants must plan to reside in the local area for the study duration.
- fluent English-speaker
- Audiometric hearing impairment: participants must have hearing configuration that could benefit from OID hearing intervention.
- ... and 2 more (see full listing online)

Exclusion (2)

- self-reported disability in ≥ 2 or more Activities of Daily Living (ADL)
- medical contraindication to use of OID; because OIDs will be the primary device used in the hearing intervention, participants with medical contraindications to OID use are excluded

Locations (1 total)
