

Natural History of Acquired and Inherited Bone Marrow Failure Syndromes

NCT05012111

Status RECRUITING
Sponsor National Heart, Lung, and Blood Institute (NHLBI)
Enrollment 1,000 participants

Key Eligibility Criteria

Inclusion (15)

- To be eligible to participate in this study, an individual must meet all of the following criteria. Subjects and their family members who undergo screening but ultimately do not meet criteria for cohorts 1-5 will be removed from the study. Subjects may forgo screening and sign directly onto cohorts 1-5 if they meet criteria based on either prior NIH testing or external examinations. Family members will only be asked to be screened for participation onto this study after confirmation of eligibility by an affected participant.
- Cohorts 1-4
- Age ≥ 2 years
- Diagnosis of acquired or inherited bone marrow failure or ineffective hematopoiesis or TBD (see below for cohort 3 specific criteria)
- Ability and willingness to come to the NIH CC for consultation and testing
- ... and 10 more (see full listing online)

Exclusion (1)

- None
