

Antenatal and Postnatal Care Research Collective - Household Survey (ARCH)

NCT05154331

Status	RECRUITING
Sponsor	University of North Carolina, Chapel Hill
Enrollment	7,500 participants

Key Eligibility Criteria

Inclusion (6)

- We will initially obtain verbal consent from the head of household (HoH), defined as an available adult (> 18 years old) who is able to provide information about household composition for pre-screening purposes. We will then identify potentially eligible women of reproductive age within each household and invite them to complete study screening procedures.
- Women of reproductive age eligibility criteria
- Verbal consent obtained from head-of-household
- years of age and a member of household in the catchment area
- Willing and able to provide written informed consent or assent with next-of-kin consent
- ... and 1 more (see full listing online)

Exclusion (1)

- Any other condition (social or medical) that, in the opinion of the study staff, would make participation unsafe or complicate data interpretation. Study staff may note physical, psychological, or social conditions not explicitly stated in the eligibility criteria that could make some women poor candidates for study participation.
