

Multi-center Collaborative to Enhance Quality and Outcomes in the Management of Cardiogenic Shock

NCT05185492

Status RECRUITING
Sponsor STAVROS G DRAKOS
Enrollment 500 participants

Key Eligibility Criteria

Inclusion (2)

- Primary diagnosis of cardiogenic shock at time of index evaluation; including acute myocardial infarction- and acute decompensated heart failure-cardiogenic shock phenotypes
- Patients with cardiac arrest complicating cardiogenic shock and those with massive pulmonary embolism with right ventricular cardiogenic shock will also be eligible for the registry

Exclusion (1)

- Patients with shock not due to primary cardiac etiology will be excluded. These include septic, hemorrhagic, and anaphylactic shock.

Locations (3 total)

Cleveland Clinic Florida, Weston, Florida, United States
Inova Heart and Vascular Institute, Falls Church, Virginia, United States
University of Toronto, Toronto, Ontario, Canada
