

PMEG for Repair of Pararenal and Thoracoabdominal Aortic Aneurysm

NCT05195905

Status	RECRUITING
Phase	Not Applicable
Sponsor	Konstantinos Dean Arnaoutakis, MD
Enrollment	30 participants

Key Eligibility Criteria

Inclusion (9)

- Provision of signed and dated informed consent form
- Male or female, aged ≥18 years
- Expected survival beyond 1 year following successful aneurysm repair
- Anatomy that would require coverage of the celiac artery, superior mesenteric artery (SMA), and/or renal arteries if conventional, FDA-approved endograft were implanted to obtain adequate sealing zone length
- Aneurysm of the thoracoabdominal or pararenal aorta with or without chronic dissection
- ... and 4 more (see full listing online)

Exclusion (20)

- Moderate-to-severe aortic neck calcification, thrombus, or tortuosity
- Severe iliac stenosis, calcification, or tortuosity with no ability to perform a conduit
- Proximal landing within zone 0 or 1
- Inability to maintain at least one patent hypogastric artery
- Freely ruptured aneurysm with hemodynamic instability
- ... and 15 more (see full listing online)

Locations (2 total)

Tampa General Hospital, Tampa, Florida, United States
