

# Fecal Microbiota Transplantation for Chronic Granulomatous Disease-Associated Colitis

NCT05333471

---

Status	RECRUITING
Phase	Phase 1, Phase 2
Sponsor	National Institute of Allergy and Infectious Diseases (NIAID)
Enrollment	20 participants

## Key Eligibility Criteria

---

### Inclusion (10)

- In order to be eligible to participate in this study, an individual must meet all of the following criteria:
- Aged  $\geq 10$  to  $\leq 60$  years.
- Able to provide informed consent (for ages  $\geq 18$  years) or has a parent or guardian who can provide informed consent on their behalf (for ages  $< 18$  years).
- Have confirmed prior diagnoses of CGD and CGD-AC (or CGD-IBD with evidence of colitis on colonoscopy).
- Fecal calprotectin level  $\geq 200$  microgram/g.
- ... and 5 more (see full listing online)

### Exclusion (12)

- An individual who meets any of the following criteria will be excluded from participation in this study:
- Evidence of acute GI infection, including active GI abscesses.
- Presence of C difficile toxin gene in stool, as identified by PCR, in screening period.
- History of intestinal obstruction definitively related to CGD-IBD.
- History of fistulizing CGD-IBD or CGD-IBD intra-abdominal abscesses.
- ... and 7 more (see full listing online)
