

# STOP? II: Testing of a Toolbox for Structured Communication in the Operating Room

NCT05356962

---

Status	RECRUITING
Phase	Not Applicable
Sponsor	Insel Gruppe AG, University Hospital Bern
Enrollment	400 participants

## Key Eligibility Criteria

---

### Inclusion (4)

- For the clusters (surgeons)
- Board-certified surgeons with specialization in one of the following disciplines: general, visceral, thoracic, vascular surgery, surgical urology, or gynecology.
- Patients operated by cluster surgeons during the cluster-specific time period
- General consent from the patients, allowing the use of healthcare-related data that are the result of the patient's treatment. In case no written document from the general consent is available despite documented efforts of the participating center, article 34 HRA (Swiss law) will be applied, allowing the use of the healthcare-related patient data.

### Exclusion (9)

- Surgeons who are already performing StOP?-protocol. (Potentially, surgeons who took part in the first study (StOP-I) may still perform StOP?).
- Surgeon who were previously enrolled in the StOP?-II trial (this is relevant for surgeons who move or rotate between departments/hospitals and might therefore be working at different participating sites).
- For the patients:
- Patient age below 18 years
- Previous operation at the same site up to 30 days prior the index operation
- ... and 4 more (see full listing online)
