

# BioMEL- Diagnostic and Prognostic Factors in Melanoma.

NCT05446155

---

Status	RECRUITING
Sponsor	Region Skane
Enrollment	2,000 participants

## Plain Language Summary

---

This study is collecting tissue, blood, and clinical data from patients with melanoma (a type of skin cancer) or suspected melanoma to discover new biological markers that could improve how the disease is diagnosed and how outcomes are predicted.

**\*\*You may be eligible if...\*\***

- You are being evaluated or treated for a suspicious pigmented skin lesion that may be melanoma (primary part)
- OR you are being evaluated for metastatic (spread) melanoma (secondary part)
- You are receiving care at one of the participating hospitals in Sweden
- You can provide written informed consent

**\*\*You may NOT be eligible if...\*\***

- Your skin lesion is so small that taking a biopsy sample for the study would compromise the ability to diagnose it properly

Talk to your doctor to see if this trial is right for you.

## Key Eligibility Criteria

---

### Inclusion (3)

- Primary part of the project: Patients in dermatological outpatient routine care in Helsingborg, Lund or Malmö Hospitals. Patients are planned for surgical excision for an equivocal pigmented skin lesion that could be a primary melanoma or a differential diagnosis of melanoma
- Secondary part of the project: . Patient, in surgical or oncological routine care in Helsingborg, Lund, Malmö or Kristianstad Hospitals. Patients are planned for surgical excision or cytological diagnostics (needle aspiration) of metastatic melanoma.
- All subjects have to be able to provide written informed consent.

### Exclusion (1)

- Patients with lesions, primary or secondary, that are so small that a punch biopsy for the study would risk affecting the histopathological diagnosis.

## Locations (4 total)

---

Helsingborg Hospital, Helsingborg, Skåne County, Sweden  
Kristianstad Hospital, Kristianstad, Skåne County, Sweden  
Lund University Hospital, Lund, Skåne County, Sweden  
... and 1 more locations
