

Imaging-based Assessment of Oral Biofilm and Gingival Health

NCT05470023

Status	RECRUITING
Phase	Not Applicable
Sponsor	University of California, Irvine
Enrollment	275 participants

Plain Language Summary

This study is using advanced imaging technology to assess the bacteria (biofilm) on teeth and the health of gum tissue in study participants, to better understand and potentially improve dental care.

****You may be eligible if...****

- You are an adult willing to participate in dental imaging assessments
- You have natural teeth that can be examined
- You are able to provide informed consent

****You may NOT be eligible if...****

- You have conditions that make dental imaging unsafe or unreliable
- You are unwilling to follow study procedures including dental assessments

Talk to your doctor to see if this trial is right for you.
