

# A Survey to Assess Participants' and Physicians' Knowledge When Using GATTEX (Knowledge Assessment Survey)

NCT05561647

---

Status	RECRUITING
Sponsor	Takeda
Enrollment	600 participants

## Key Eligibility Criteria

---

### Inclusion (2)

- Participants who are 18 years of age and who have taken GATTEX in the 60 days prior to survey implementation are eligible to participate in the survey. A caregiver may participate in this survey on behalf of a participant who is eligible but unable to complete the survey. Note: Participants who have previously participated in a GATTEX Patient Knowledge Assessment Survey, are eligible.
- HCPs (adult and pediatric) in the United States who can provide a 10-digit National Provider Identifier (NPI) number and who have prescribed GATTEX at least once regardless of their completion of the voluntary GATTEX REMS training (Prescriber Education Slide Deck) are eligible for participation in the survey. Note: HCPs who have previously participated in a GATTEX Prescriber Knowledge Assessment Survey, are eligible

### Exclusion (4)

- Respondents who do not agree to participate in the survey.
- Respondents who are currently working for and/or whose immediate family members who are currently working for Takeda Pharmaceuticals U.S.A., Inc., NPS Pharmaceuticals, Inc., Shire, UBC, or the Food and Drug Administration (FDA) are not eligible to participate in the survey.
- Respondents who reported having a conflict of interest.
- HCPs who have opted out of receiving communications about the GATTEX Prescriber Knowledge Assessment Survey for the current wave
