

Evaluating the Genetics and Immunology of Periodic Fever, Aphthous Stomatitis, Pharyngitis, and Cervical Adenitis (PFAPA) Syndrome and Other Tonsil Disorders

NCT05656365

| | |
|-------------------|---|
| Status | RECRUITING |
| Sponsor | National Institute of Allergy and Infectious Diseases (NIAID) |
| Enrollment | 1,500 participants |

Key Eligibility Criteria

Inclusion (5)

- Aged ≥ 1 month. To be seen at the NIH CC, participants must be ≥ 3 years of age.
- Diagnosed with PFAPA or another tonsil disorder, or has symptoms consistent with these conditions, as determined by the investigator.
- Able to provide informed consent (for ages ≥ 18 years) or has a parent or guardian who can provide informed consent on their behalf (for ages < 18 years).
- Willing to allow specimens and data to be stored for future research.
- Willing to allow genetic testing on their biospecimens.

Exclusion (1)

- An individual who has any condition that, in the judgment of the investigator, may put them at undue risk or make them unsuitable for participation in the study will be excluded.
