

Electrical Impedance Tomography & Selective Stimulation of Vagus Nerve

NCT05664854

Status	RECRUITING
Phase	Not Applicable
Sponsor	University College, London
Enrollment	50 participants

Key Eligibility Criteria

Inclusion (3)

- Age over 18
- Written informed consent by patient or proxy
- Clinical diagnosis of disorder affected directly or indirectly or will possibly respond to vagus nerve stimulation

Exclusion (2)

- Aged 17 and below
- Unfortunately, it is unlikely that interpreters of all languages will be available in the unit so persons who cannot understand verbal explanation in English and for whom we could not find a suitable consultee would have to be excluded from the study.
