

Leveraging Regulatory Flexibility for Methadone Take-Home Dosing to Improve Retention in Treatment for Opioid Use Disorder

NCT05675735

Status	RECRUITING
Phase	Not Applicable
Sponsor	NYU Langone Health
Enrollment	318 participants

Key Eligibility Criteria

Inclusion (2)

- Clinic staff inclusion will include anyone who works at the 10 clinics that the OASAS client data system generates from the quantitative analysis in year one. In years 2-5, clinics chosen by the OASAS client data system will be placed into six cohorts. Only staff from these clinics will be eligible.
- Patient inclusion will include anyone aged 18 or older who has been receiving take-home methadone for at least 30 days.
