

Development and Validation of Learning and Decision-Making Tasks

NCT05707806

Status RECRUITING
Sponsor National Institute on Drug Abuse (NIDA)
Enrollment 550 participants

Key Eligibility Criteria

Exclusion (18)

- In order to be eligible to participate in this study, an individual must meet the following criteria:
- Male or female, aged 18-45 years old. Justification: Many neural processes change with age, and these changes could introduce unwanted variability in both behavioral and MRI signals.
- In good general health.
- In order to be eligible to participate in the MRI phase of this study, an individual must - in addition - also meet all of the following criteria:
- Right-handed.
