

A Prospective Natural History Study of Lymphatic Anomalies

NCT05731141

Status	RECRUITING
Sponsor	Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD)
Enrollment	1,200 participants

Key Eligibility Criteria

Inclusion (9)

- Affected (Proband)
 - In order to be eligible to participate in this study, an individual must meet one of the following criteria as determined after review of medical history:
 - Current or history of lymphatic anomaly or symptoms suggestive of a lymphatic disorder Or
 - An ill-defined vascular anomaly that is suspected to have an abnormal lymphatic component Or
 - A pathogenic, likely pathogenic, or VUS in a genetic disorder with a known lymphatic component Or
- ... and 4 more (see full listing online)

Exclusion (6)

- Affected Proband
 - An individual who meets any of the following criteria will be excluded from participation in this study after review of medical history, concomitant medication and allergy review, anthropometrics, and performance status:
 - Any condition, in the opinion of the investigator, that would increase risk of participation or impair their ability to comply with protocol requirements.
 - Lymphatic anomalies that are definitively determined to be secondary by the principal investigator will be excluded from this study. For example, participants who develop a lymphedema after breast cancer surgery.
 - Unaffected (First Degree Relatives)
- ... and 1 more (see full listing online)
