

Fetoscopic Endoluminal Tracheal Occlusion

NCT05771688

Status	RECRUITING
Phase	Not Applicable
Sponsor	Children's Hospitals and Clinics of Minnesota
Enrollment	10 participants

Key Eligibility Criteria

Inclusion (11)

- A subject is defined as a female (18 years or older) who is pregnant.
- The pregnancy must be a singleton pregnancy.
- The CDH must be left-sided.
- The CDH must be severe (Observed to Expected Lung to Head Ratio - O/E LHR - $< 25\%$ from U/S measurements).
- No associated lethal anomalies (other than the CDH), no pathogenic variants on microarray, and no pathologic findings on karyotype.

... and 6 more (see full listing online)

Exclusion (15)

- Twin or higher order gestation
- Not able to consent
- Right-sided or bilateral CDH
- Additional fetal or genetic abnormalities that would impact care after delivery or be known to have an impact on outcome
- Maternal isoimmunization or neonatal alloimmune thrombocytopenia

... and 10 more (see full listing online)
