

Evaluation of the Transitional and Lifelong Care Program

NCT05849285

Status RECRUITING
Sponsor Western University, Canada
Enrollment 410 participants

Key Eligibility Criteria

Inclusion (3)

- Each participant dyad will consist of one person, of either sex and gender, who is over the age of 21 years with a childhood-onset disability, and the primary caregiver (based on contact hours) or support person, of either sex and gender, involved in their care. In cases where the patient participant is independent with care, a spouse or family member may still participate in the caregiver portion of the study.
- \. Patient participants will have continuously resided in Ontario during the years of 2015 to 2020 to facilitate full data retrieval from the administrative dataset.
- \. Healthcare providers, of any discipline, who provide care to adults with childhood-onset conditions in the TLC program.

Exclusion (1)

- Patient participants will be ineligible if they are in a phase of deterioration associated with a progressive health condition identified either personally or by the caregiver participant.

Locations (1 total)
