

# Exploring the Nature, Assessment and Treatment of Stuttering

NCT05908123

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	University of Texas at Austin
<b>Enrollment</b>	3,000 participants

## Key Eligibility Criteria

---

### Inclusion (9)

- A participant will be considered a child who stutters (ages 2-17 years) if
  - their parent/caregiver reports concern that their child is a person who stutters,
  - they exhibit three or more stuttering-like disfluencies (e.g., sound/syllable repetitions, (in)audible sound prolongations, whole-word repetitions) per 300-word speech sample, or
  - they present with an overall score of 11 or higher on the Stuttering Severity Instrument - 4th Edition (SSI-4).
  - A participant will be considered an adult who stutters (18+ years) if
- ... and 4 more (see full listing online)
