

Quality Control of Ultrasound Images During Early Pregnancy Via AI

NCT06002412

Status	RECRUITING
Sponsor	Chinese Academy of Sciences
Enrollment	400 participants

Key Eligibility Criteria

Inclusion (2)

- Women in early pregnancy who have detailed personal information and ultrasound images.
- The ultrasound images should clearly show the fetus's median sagittal, NT, and choroid plexus views.

Exclusion (3)

- Ultrasound images from women in mid to late pregnancy.
- Ultrasound images that are unclear or blurry, making evaluation difficult.
- Women who did not provide complete personal and medical information during the ultrasound scan.
