

Clinician Satisfaction With the VERABAND™

NCT06080464

Status	RECRUITING
Phase	Not Applicable
Sponsor	University of Michigan
Enrollment	360 participants

Key Eligibility Criteria

Inclusion (7)

- Any treating clinician at a recruiting tertiary pain clinic will be eligible to participate.
- Patient participants must meet the following criteria:
- Ambulatory
- Diagnosis of chronic low back pain (cLBP) according to the criteria of National Institute of Health (NIH) Task Force on Research Standards for cLBP
- Answering 'Yes' to the question: Does your low back pain interfere with your mobility?

... and 2 more (see full listing online)

Exclusion (6)

- Clinical findings suggesting the presence of ongoing systemic disease, including fever, weight loss, initiation of pain following major trauma, immunosuppression, intravenous drug use, recent bacterial infection, severe or persistent sensory or motor involvement of bowel, bladder, or lower extremity; or any condition that would greatly limit physical activity not due to pain.
- Inability to speak and write English.
- Visual or hearing difficulties that would preclude participation.
- Severe psychiatric disorders that in the opinion of the investigative team would interfere with participation in the study. This includes any active suicidal ideations or history of suicide attempts. Exclusions will be based on self-reported medical history or chart review and in accordance with Diagnostic and Statistical Manual of Mental Disorders (DSM)-5 criteria.
- Individuals receiving disability or compensation or involved in litigation.

... and 1 more (see full listing online)
