

Surveillance for Multifocal GGNs

NCT06097910

Status RECRUITING
Sponsor Fudan University
Enrollment 370 participants

Key Eligibility Criteria

Inclusion (11)

- Demonstrates the following on thin-section computed tomography (TSCT) scan:
 - Presence of three or more GGNs (bilateral lesions are permitted).
 - All lesions have remained stable without regression or enlargement for at least 3 months.
 - The dominant lesion (the lesion with the largest maximum tumor diameter) has a maximum tumor diameter $\geq 0.6\text{cm}$ and $\leq 2\text{cm}$.
 - CTR ≤ 0.25 in all lesions.
- ... and 6 more (see full listing online)

Exclusion (4)

- History of any prior malignancies within the past 5 years.
- History of lung surgery.
- History of interstitial pneumonia, pulmonary fibrosis or other severe pulmonary diseases.
- Presence of severe or uncontrolled diseases that may possibly reduce the 10-year life expectancy.
