## Key Eligibility Criteria

---

### Inclusion (3)

- A diagnosis of OMS that is not responding to dental treatment and/or medical treatment
- Agreement on the odontogenic cause between an ENT specialist and a dentist/maxillofacial surgeon (There is bone loss surrounding the tooth's root and a connection between the dental lesion and sinus on CT scans)
- Availability of clinical, radiographic, and ESS data.

### Exclusion (3)

- Maxillary sinus malignancy
- Sinuses with a previous surgery
- Non-odontogenic Sinusitis

## Locations (1 total)
