

Virtual Reality for Non-cardiac Chest Pain

NCT06262126

Status	RECRUITING
Phase	Not Applicable
Sponsor	Mayo Clinic
Enrollment	10 participants

Key Eligibility Criteria

Inclusion (3)

- Symptoms of non-cardiac chest pain (recurrent anginal-like or atypical chest pain)
- Negative prior cardiac evaluation (at a minimum, including electrocardiogram)
- Prior esophagogastroduodenoscopy and/or barium esophagram to rule out severe esophagitis, stricture, or motility abnormality

Exclusion (4)

- Initiation of a proton pump inhibitor (PPI) within 8 weeks
- Major concomitant illness
- Current drug or alcohol use that would interfere with adherence to study requirements
- Symptoms of vertigo or dizziness that would limit tolerability of the VR headset

Locations (1 total)
