

The Effectiveness of Early Intervention to Correct the Position of PDC:s

NCT06267989

Status	RECRUITING
Phase	Not Applicable
Sponsor	Göteborg University
Enrollment	324 participants

Key Eligibility Criteria

Inclusion (1)

- One or both upper permanent canine teeth are not palpable or there is a pronounced difference in the eruption between the left and right side. Dental radiographs will be taken to confirm that the permanent tooth is displaced. Canines in sector 5 are going to be excluded from this trial.

Exclusion (1)

- Buccal displacement of the canine(s), missing permanent lateral incisors; severe upper arch dental crowding (>2 mm in each affected quadrant) or associated pathology.
