

# 3D Printed Personalized Ostomy Appliance

NCT06310070

---

<b>Status</b>	RECRUITING
<b>Phase</b>	Not Applicable
<b>Sponsor</b>	Carilion Clinic
<b>Enrollment</b>	30 participants

## Key Eligibility Criteria

---

### Inclusion (5)

- years old
- Must have had current ostomy appliance for > 6 weeks - if patients with stomas less than 6 weeks are included, their personalized templates will not be useful once the stoma size has changed after their initial scan.
- Must have experienced > 1 leakage in the week leading up to day of consent. - If patients are not experiencing leakages, then there will be no baseline data to compare effectiveness of the post-3D appliance intervention.
- Participants must be able to consent for themselves
- Access to phone AND computer with internet access. Patient must be able to provide electronic mailing address for e-consent documentation and REDCap surveys.

### Exclusion (2)

- Concern for patient being able to be reached over the phone or reliable internet access for REDCap survey completion
- Existing peri-stomal skin breakdown including ulceration or mucocutaneous separation.
