

The VIA Family 2.0 - a Family Based Intervention for Families with Parental Mental Illness

NCT06312410

Status	RECRUITING
Phase	Not Applicable
Sponsor	Mental Health Centre Copenhagen, Bispebjerg and Frederiksberg Hospital
Enrollment	1,452 participants

Key Eligibility Criteria

Inclusion (9)

- At least one of the parents must be living in Capital Region or in Region North, Denmark, and at least one biological child under age 18 must be living with one of the parents. Only biological children of the parent with a mental health problem can be included.
 - The parent with the mental health problems has at some point been diagnosed in the secondary sector and has within the last three years been treated in the primary sector (GP or private psychiatric clinic) or in the secondary sector (hospital psychiatry).
 - Patients with substance abuse can only be included if substance abuse is a secondary diagnosis to another mental illness disorder being treated within the secondary sector during the last three years.
 - All adult participants must give informed consent. Both parents will need to consent in case of shared custody, but do not have to participate if they are reluctant to do so.
 - Not giving informed consent
- ... and 4 more (see full listing online)
